

Performance[®] CLEAN STAINLESS

STAINLESS STEEL CLEANER

Product Code
826230

Industrial Spraycans

CLEANER

Stainless Steel Cleaner

This product is a high quality spray to quickly clean shine & protect stainless steel parts. Effectively eliminates surface fingerprints, grease, streaks, residues and haze. Thanks to the unique formula, after cleaning, a thin protecting film is formed, which effectively prevents renewed adhesion of dirt and fingerprints.

Performance Clean Stainless can be used on microwaves, refrigerators, extractor hoods, sinks, stainless steel trash cans, counters, garden lightening, terrace heating, machinery and stainless steel equipment.

Excellent cleansing properties, good corrosion prevention, restores and intensifies the gloss, 360° valve resulting in the possibility to use the spray can in all positions, lasting protection, non-polishing, misty spray pattern, user-friendly.

e 400ml

Typical Performance Data

Typical	Value
Base	Combination of mineral oil and specific additives
VOC content, % w/w	80
Colour	Transparent White
Odour	Lemon
Density @ 20 °C, g/ml	0.74
Viscosity oil @ 20°C, mPa.s	13

How to use:

To prevent scratches, remove loose dirt with a soft brush. Apply stainless steel cleaner in a thin, equal layer and allow to take effect. Remove the dirt with a clean cloth. Polish to gloss with a dry, clean cloth.
